> About Global Journals Inc. (US)

THE BOOKS ARE ALL VERY, VERY DIFFERENT SO THE PUBLISHERS REALLY HAD TO BE DIFFERENT TOO. -MARK MILLAR

- Global Journals Inc. (US) is a world leading provider of specialized information solutions in the Science, Medical, Computers, Engineering and Business sectors. Our roots are in international journal publishing, where we have fostered the double blind professional peer-review process for more than a decade. Today we are driving innovation by delivering authoritative content with cutting-edge technology, allowing our subscribers to find the answers they need quickly. We are the leading & founding publisher of worldwide packages that provide free or low-cost access to science and health information in the developing world. We develop online information solutions that aid scientists, researchers, corporates, universities and professionals achieve better outcomes.

> About Global Association of Research

Global Association of Research combines profound research proficiency with novel technology to convey vital information to expert decision makers around the global human race. It is progressively more imperative to express to all that we carry out our responsibility in a responsible way. We make our clientele around the globe depend on Global Association of Research to offer them with trustworthy and objective research and information. This way we have an extraordinary need to preserve our liberty and truthfulness and to stay away from any form of bias. Our corporation has pledged to maintain the principles and to care for its reliability, self-determination and liberty from unfairness in the scientific meetings and international research collaborations.
