Healing of Neurological Disorders with Bio Electron's Photons

By Nick Kostovic

Kostovic Acupuncture by Bio Electrons Laser, United States

Introduction- Before I begin the cases below, let me explain what and how this Kostovic Biotechnological Energetic Medical Laser Device, K-BTE works. The K-BTE Device is created in a proprietary method, we've assembled in a special circuitry 120volts of Dc/Ac/ Reverse(canceling the magnetic from the electric) which then is transferred through water. After deleting the magnetic aspect we extract the bio electrons from this water (electric fluid), controlling their direction and strength(micro and nano amperes frequency). Lastly we add in extracted electrons enriched with a number of natural acids. We incorporate these natural acids into our Biological Agents Device.

Knowing the human body's resistance to the ground is 1,000 Ohms (dry) yet using 120 voltages of AC we very safely produce the gentle effect of 12-15 Micro Amperes (DC). By utilizing this newly discovered Reverse Current and separating electro from magnetic we easily prevent electromagnetic shock. Our K-BTE device utilizing these gentle Micro Amperes frequencies can effectively burn and disperse oxidized proteins from the body. This frequency is 10,000 times less in strength than today's developed laser technology. These energetic acupuncture type penetrations on the surface of the skin are soft, not at all an electric shock.

Healing of Neurological Disorders with Bio Electron's Photons

Nick Kostovic

I. INTRODUCTION

Before I begin the cases below, let me explain what and how this Kostovic Biotechnological Energetic Medical Laser Device, K-BTE works. The K-BTE Device is created in a proprietary method, we've assembled in a special circuitry 120volts of Dc/Ac/Reverse(canceling the magnetic from the electric) which then is transferred through water. After deleting the magnetic aspect we extract the bio electrons from this water (electric fluid), controlling their direction and strength(micro and nano amperes frequency). Lastly we add in extracted electrons enriched with a number of natural acids. We incorporate these natural acids into our Biological Agents Device.

Knowing the human body's resistance to the ground is 1,000 Ohms (dry) yet using 120 voltages of AC we very safely produce the gentle effect of 12-15 Micro Amperes (DC). By utilizing this newly discovered Reverse Current and separating electro from magnetic we easily prevent electromagnetic shock. Our K-BTE device utilizing these gentle Micro Amperes frequencies can effectively burn and disperse oxidized proteins from the body. This frequency is 10,000 times less in strength than today's developed laser technology. These energetic acupuncture type penetrations on the surface of the skin are soft, not at all an electric shock. It doesn't matter the human body's resistance to the ground is 1,000, or 100,000 or 1,000,000, wet or dry, it just doesn't matter anymore because we can produce such a low frequency of Micro Amperes and we have eliminated the magnetic from the equation. We can even bring it down further to the Nano Amperes frequency which is 1 billionth of the amplitude.

The new invented laser medical device Kostovic Biotechnological Energizer, called K-BTE correlates to the energetic fields that already exist in nature, but in more effective form. The mineral granite fields surrounded by ice, caused by low temperature in nature, radiate strong elementary energy. The irradiated elementary energy from mineral fields interacts with complex elementary biochemical energy charges from the sun's rays. It is well known that these fields exist in the far regions of Earth.

For example, some of these extraordinary energy fields are found on the slopes of Himalayas. These areas attract extremely powerful, complex and rich sun's ray elementary biochemical energy charges from nature and can contribute to a longer lasting and healthier life. For this reason, some people in these areas live extended lives, up to one hundred years or more and are not prone to most degenerative diseases.

Kostovic -Biotechnological Energizer, K-BTE medical laser device creates a powerful energetic vibration through its field that is capable to attract these elementary biochemical charges and the electron neutrinos, which are more effective, form than extraordinary fields on the Earth, as the slopes of Himalayas.

The durability of rudiment of cellular components is directly dependent on the attracted new elementary biochemical charges and electron neutrinos. Released elementary biochemical charges and electron neutrinos are the only ones in the form of the elemental energetic values. These are capable of nourishing and rebuilding the cellular components into central nervous system. Enzyme proteins are enriched, and the oxidized proteins are unmistakably "burned off". The rudiment of cellular components is consist of DNA, proteins and lipids as chemical element. Its recovery depends exclusively on attracted elemental biochemical energetic values.

The Center has further continued research and development of the transfer of the different elementary energy values from nature through hairs and skin (hairs are the offshoot of central nervous system), directly into the cellular components of the brain. Due to the stimulation of the pineal gland in the brain, this process is visible with the closed eyes.

On a daily basis our cells are always being born and dying. When we are young our bodies can disperse and get rid of all the dead cells. We have cells that eat these dead oxidized proteins. But with aging the dead cells are produced faster than the aging body can get rid of. When the oxygen and protein rich blood supply is prevented from reaching and feeding the muscle fibers due to this build up of dead cells, then the nourishing proteins become oxidized proteins.

These oxidized proteins become our number 1 enemy, as they attract parasites, microbes and bacterias etc. So now the human body not only has dying fiber tissue, the building blocks of muscle tissue

but we also have diseases developing. If we are not able to clean this declining fiber tissue from the dead cells and oxidized proteins, then the tissue will die, creating a domino like effect killing more and more fiber tissues, the building blocks of the organs.

For the first time in history our discovery enables us to maintain the physical organs. We do this by first cleansing the fiber tissues, burning away the dead cells and oxidized proteins with our wireless acupuncture therapy. After we have burned away the dead cells and oxidized proteins making space for the healthy blood supply to finally reach the fiber tissues, then body can rebuild healthy fiber tissue.

The K-BTE Medical Laser Device is always preformed in three phases which is why it is so highly efficient in improving and healing the different types of neurological and physical disorders. As I have stated first we wirelessly send biochemical electrical impulses into the diseased fiber tissue of injured areas to "burn off" the oxidized proteins, unhealthy and malignant cells from the healthy cells, enabling the body to easily excrete them.

While wirelessly sending these photons of bio electrons through the patient's skin to burn away the diseased areas, we are also burning away any plaque within the vascular system that is supplying this area. Thereby eliminating clots in vascular system, enabling the injured and healthy cells to fully receive the healthy blood supply of oxygen and proteins.

After we have cleansed the area with the bio electrical electricity, the second process is using the Biological Agent Device. This Biological Agent Device releases sheaves of elementary laser beams of biological electricity with enriched electrons. We enrich the electrons with biological and mineral agents such as gold, silver and pyrite-Fe₂ and converted amino acids. We use various natural acid liquids such as virgin olive oil, fig acid, and lemon, etc., ("values of different energetic conductors") into an energetic form of enriched electrons. The virgin olive oil contains natural acids, Oleic and Linoleic which are considered antioxidants, not saturated fats, like polyphenol.

These ingredients are very important in the *protection of healthy cells from destructible free radicals*. We biochemically charge these natural acids converting them into a *light* wrapping which surrounds the electrons. Extracted from the H₂O electric fluid and coated with the converted natural acids (light charged), these electrons become bio electron photons which we are capable to absolutely control and direct into the patient's tissue, nourishing and invigorating the healthy cells.

The final segment of this therapy, is very intricate. I have many documents on my website that delve into greater detail. This Center has continued in-depth research and development of the laser's transfer of the different elementary energy values from nature

through the hair and skin pores (hairs are the offshoots of the central nervous system), directly into the cellular components of the brain. In this final segment the therapist touches the client's forehead with his/her index fingers which stimulates the pineal gland in the brain, this laser process is easily visible with the patients closed eyes.

The therapist transfers the biological electricity in the form of different energetic vibrations by pressing his/her fingers on the patient's forehead, scalp and skin releasing this bio electric vibration which supplies throughout the recently cleansed brain with more of the finest/slightest bio photon elemental energy.

This finest bio photon elemental energy interacts with the brain enabling/reflecting surplus weaker elemental energy to irradiate out from the brain creating an aura of elemental energy. This aura around the outside of the calvarium/skull becomes the catalyst for attracting more elemental biophoton particles of sunlight directly into the brain. These elemental bio photon sunlight particles (which can't be seen with the naked eye) surrounds us in nature and now for the first time in history we can attract and direct them. This surplus of weaker elemental brain irradiation now circulating in an aura outside of the skull appears to the patient's open eyes as a wavy blurry view. Our ability to attract these bio photon sunlight particles directly into the brain provokes/awakens passive, dormant, hibernating brain nerve cells. As we awaken the passive/hibernating brain nerve cells we are simultaneously nourishing and feeding any damaged and weaken areas thereby regenerating these harmed and injured areas in the brain.

The healing process to the brain's nerve cells gradually become visible to the patient by this special way of attracting elementary biochemical bio photon charges. With closed eyes the patient sees circles of many colors including white, black, blue, green, red, rose, yellow, turquoise, purple, orange and gold as the body absorbs the elementary biochemical bio photon charges awakening billions of hibernating passive brain nerve cells converting them into newly activated brain nerve cells.

When dormant, passive brain nerve cells now become newly activated brain nerve cells, the brain can then successfully combat the causes of most neurological disorders and traumatic brain injuries. Simultaneously, while the newly activated brain nerve cells (the former passive, dormant brain nerve cells) are being strengthened and invigorated they are now creating improvement in the neuronal functioning plus increasing neuronal production and improving the various nerve impulses throughout the body.

The mobility and movements of the arms, legs, spine etc, reacquire their normal function, since the neuronal activity has been repaired, the body is restored. The results are notable, the mitigation of

immobility displays the improvement for the patients suffering from this horrible disease. In their dormant form these passive brain nerve cells are resistant and indestructible to all neurological illnesses. The passive brain nerve cells are slight and very sensitive and contain faint energy charges which can only be stimulated/awakened by attracting to them the finest elementary biochemical energy charges through this very slight form of energetic vibrations.

II. ALS TREATMENT

ALS (Aumyotropic Lateral Sclerosis) is a disorder of the motor neurons which are responsible for contracting skeletal muscles. The body's organ muscles start to atrophy, losing functionality and with some paralysis begins. The varying degrees of this illness affect gradually two groups of motor neurons. One group of motor neurons results in the immobility of the extremities and other in the form of paralysis in some organs. The characteristic symptoms of ALS eventually appear as a weakened neuronal structure. ALS is most likely well established by the time the patient first notices muscles weakness, shortness of breath, reduced ability to swallow, decreased mobility etc. As we perform our Bio-electric surgery and therapy on ALS sufferers, releasing bio electron's photons enriched with natural acids into the brain,. The damaged areas are easily revealed due to the fact that the infected areas in the brain are quite painful when touched with our bio energetic acupuncture technique. Using two agents, one from minerals such as gold, silver, or pyrite and the other from biological agents such as lemons, fig acids and fish bones we simultaneously send the bio electron's photons enriched with these natural acids into the brain. As they penetrate throughout the brain the unhealthy cells from the damaged areas begin a "burning off" process enabling them now to be easily excreted from the body. The ALS damaged areas in the brain are a source of aggressive "dying off" of active brain nerve cells. We are able to prevent this condition from further neuronal deterioration and non functioning of motor impulses. Our results are a notable process due to the mitigation of further immobility as well as paralysis. For some clients we can completely bring back the body's normal functioning again.

Treatment plans for ALS patients are a minimum of one year with daily sessions of 50 minutes at least 6 days a week. Daily sessions could consist of more than one 50 minute treatment per day. Treatment plans are determined by the severity of their condition. After the treatment plan has been completed it is necessary to have a yearly follow up of at least one month. It is strongly recommended to have this yearly clean-up to refresh those formerly affected weakened areas of the ALS. These patients who have had the bio-electric therapy benefit greatly especially since it is also

preventive to paralysis. The duration of recovery and improvement is long lasting but follow-ups are imperative to keep those dead cells from piling up again. Though the enriched bio electron's photons released has the capability of regaining neuronal motor impulses many wheelchair bound patients still need to get physical therapy to rebuild those atrophied muscles so they can finally get out of the wheelchair.

III. ALS BERBERY TYPE CASE

The patient A. was diagnosed with ALS Berbery type in June 2001. He was seen by the top ALS expert at UCLA in August 2001. The doctors informed the patient that his CO₂ would measure 45 points within 6 months which would cause suffocation. The doctor's predicted this progressive disease would end his life by January 2002. The UCLA doctors informed him that any technology for preventing the growth of the CO₂ had not been developed yet. Fortunately patient A. found our center. We stand alone in our technology since we are able to clean his physical organs from CO₂, nerve's biochemical toxic gases, radioactive radiations, etc. Medical doctors have yet to match our technology. Which is why the FDA has approved our laser medical device and given it a classification of it's own.

UCLA offered the patient an experimental drug called Rilutek. The prescribed drug would somehow subside suffocation, but the side effects would compromise his liver and kidney functions. The drug, with these side effects, could not extend the patients life beyond 6 months which matched his CO₂ prognosis. Fortunately the patient A declined the medication.

Patient A. suffered from ALS-Berbery type, beside the difficulty breathing and swallowing his symptoms included falling down. Patient A. came to the Biotechnological Health Center January 13, 2002. Hopeless and near death he was desperately looking for help. He had heard that I helped a patient suffering from ALS who's mobility was restored after the K-BTE treatments. With this type of ALS- Berbery - CO₂ levels were at 43 points which is extremely high for the lungs. As noted, this level of CO₂ would naturally increase and eventually cause suffocation. Within 10 days of treatments his CO₂ was decreased by one point bringing it to 42. The treatments were performed directly into the chest area simultaneously from front and the back. The patient released by coughing up colorless, sticky layers of compressed mucous. By releasing these elementary laser's beams of enriched bio electron's photons of the biological electricity into the skin and then into the blood vessels in the lungs we started the process of cleaning. After 1 month of sessions his CO₂ decreased and his muscle structure was strengthened. After 180 treatments the CO₂ was lowered to 28 which is normal, and it never increased again. We also treated the throat area, strengthening the nodules on the vocal

cords thus recovering speech, rejuvenating the esophagus tissues and restoring the ability to swallow. By treating the neck area his head was able to become straightened to its normal vertical position within one month. Arms and legs were restored from atrophy and restored the existing areas from paralysis. After 18 months the patient's results were notable, walking, laughing, speaking, swallowing, his entire metabolic condition improved. His life was extended 8 years. But unfortunately, Patient A did not commit to the recommended follow-ups.

IV. PARKINSON'S DISEASE CASE

Parkinson's disease affects the neurons that control the complex performance of body movements. Their decline causes weakness and the patient experiences tremors in the arms and legs gradually becoming paralyzed.

Patient B. is a 80 year old man with Parkinson's Disease: The patient had tremors in both arms and his right leg causing aggravated mobility. UCLA medical doctors prescribed a combination of levodopa and carbidopa which is used to treat the symptoms of Parkinson's Disease. The drugs didn't help, and the UCLA doctors didn't have any other technological healing options. The patient was not satisfied with the traditional treatment plan so he sought treatment at The Biotechnological Health Center, Inc. His active brain nerve cells were strengthened by the penetrating enriched bio electron's photons in the form of elementary needles of energetic acupuncture. The passive brain nerve cells were awakened by the elemental biochemical charges of different energetic vibrations. We successfully reversed his nerve damage and reversed the muscle damage. Patient B's arms and legs were restored from tremors thus returning to his normal mobile function. His symptoms were completely eliminated confirming our results as notable and worthy of attention from the medical community. The enriched bio electron's photons of bio-electricity also renewed Patient B's weakened and sore knee tissues, bone and soft cartilage.

Patient B's testimony which was written after his recovery can be found on my website. In addition, his testimony was filmed by Croatian National Television. Patient B. is first case in the world cured from Parkinson's diseases.

V. TREATMENT FOR ALZHEIMER'S

Alzheimer's disease affects the memory and intelligence. Patients become unable to recognize the closest of family members and their environment. Treatments plan is a minimum of 1 year, 6 days per week with 50 minute sessions, we think double sessions each day can speed up the recovery time.

The damaged areas of the brain caused by Alzheimer's disease are treated as I explained earlier with striking the skull with enriched bio electron's photons in the form of elementary needles of energetic acupuncture through biological agents.

As noted, the bio photon energy wirelessly penetrates through the skin directly into the sickened areas deep into the brain, targeting the sources of the illness. The biological electricity is enriched with amino acids of Virgin olive oil etc which is converted into an energetic form of enriched bio electron's photons. These enriched amino acids in the biological agents penetrate into the brain revealing the damaged brain areas, the sources of the disease which we gently yet powerfully destroy. Modern science hasn't yet discovered the causes of Alzheimer's disease as well as most neurological disorders, yet we can easily find the exact damaged areas deep into the brain, because they are painful. Directing these sheaves of enriched electrons into these painful areas we destroy and excrete these unhealthy cells from the brain. We know improvements are made when the pain level had decreased, neuronal functioning is restored and the patient reports that memory and intelligence has definitely improved.

VI. MS DISEASE CASE

Patient C. is a 33 years old female patient from Zagreb, Croatia. She suffered from an extremely progressive type of multiple sclerosis. Her symptoms included lose of balance and falling down. After nineteen weeks of treatments the patient was recovered to normal balance.

MS disorder is caused by inflammation of the myelin sheath which causes impairment and a decline of motor neuron functioning. Gradually the muscular system becomes paralyzed, diminishing the patient's mobility. Using the same technique of intensive therapy by the K-TBE laser medical device, releasing enriched bio electron's photons into the body, the patient's legs and arms muscle impairment was reversed and mobility was restored. In addition, the blood circulation returned to these areas and reflexes were restored and active. These improvements were accomplished by regenerating active and awakening passive/hibernating brain nerve cells with the elemental biochemical values. The damaged areas of the brain and spinal cord were struck with enriched bio electron's photons of biological electricity. The sources of the MS disease were destroyed and dispersed without any negative side effects. It is important to point out that in this case the painful spots were detected deep in the brain confirming inflammation of the myelin sheath which caused the impairment of the spinal cord fluid from reaching the brain. We completely reversed the nerve damage as well as we reversed the muscle weakness and patient C. is

now free of the disease. Testimonials from Zagreb, Croatia is written by Prof. Dr. Zlatko Drvar and can be found in preface of my book "Universe God's Jewel".

a) *The Patient C. is first case in the world cured from MS*

MS, Neuropathy and Dementia treatments take approximately 6 months with 50 minutes sessions, 5 days a week. Intervals between device use is not necessary or recommended. Regaining mobility with significant degrees of improvement and reversing muscle weakness is unheard of. After our treatments are completed if a patient has been in a wheelchair for a while then physical therapy is imperative to regain muscle strength in the atrophied muscles in order to walk without the wheelchair or a cane. Duration of the restored health condition is long lasting with advised once a year follow up treatments.

On our website we have testimonials and medical records which will validate the results with substantial scientific evidence. The K-BTE Medical Laser Device performs this bio-electric surgery and therapy providing clinically significant improvement in patients illnesses based on significant and valid scientific evidence. While at the same time, this device poses no risk of illness or injury to any healthy cells. This therapy is highly successful in the recuperation from these diseases and offers significant mitigation of symptoms. Additionally, this advanced technological discovery is an adjunct to early diagnosis of various illnesses. It is capable of detecting and revealing painful areas in the brain or any other physical organ before they even show up on MRI's or CAT SCANS. The K-BTE device keenly reveals the damaged areas affected with unhealthy cells. MRI's and other diagnostic equipment are not always able to detect the early origin of many diseases, but we are able to penetrate and with precision to locate the damaged unhealthy areas. After each treatment the pain immediately subsides. Once the cleaning process is completed, the once affected areas with unhealthy cells is no longer painful and treatments now start to feel comfortable. The duration of treatments for eliminating tumors and malignant cancers could be from 2 to 6 months, we consider this as short term use. Neurological Disorders including some of the most difficult cases are a minimum of 6 months to one year or more, we consider this long term use.

For patients with any recent surgical procedures we do not recommend having the K-BTE treatment. Although the K-BTE device is capable of performing on open wounds and does help in speeding up the recovery time, we restrict our treatment until the patient has recovered from their previous surgery.

According to official statistics, 60 million US citizens are suffering from 600 hundred different types of neurological disorders. Utilizing the K-BTE device's bio-electric surgery and therapy we are capable of

significantly improving the cognitive functioning, memory and mobility of many of these neurological disorders.

The K-BTE medical laser device is extremely capable to mitigate many symptoms associated with these 600 different neurological diseases as well as eliminating a number of these disorders.

This KBTE Device can prevent diseases from developing, including neurological diseases, cancer, stroke and heart disease as well as restore those afflicted with these diseases making their lives healthy, vital and longer lasting.

The Kostovic Health Center has 17 years of research and studies of helping incapacitated ALS, Alzheimers and MS patients regain the use of their limbs and no longer needing wheelchairs after only months of this unique therapy. Some we completely healed but most of them we absolutely improved their health, which modern science today is unable to do. Modern science attests to the fact that they might be able to slow down the progression but have never improved their symptoms nor stopped the deterioration of motor skills and declining brain functioning.
